

State of Arizona
Department of Liquor Licenses and Control

Multiple Licenses Per Location Permitted

July 20, 2011

The following liquor license combinations may be “stacked” (multiple, active liquor licenses in one location):

The above “stacked” licenses are in addition to the current liquor license combinations which may be “stacked”:

- 1 (in-state producer) and 6 (bar – all spirituous liquor)
- 1 (in-state producer) and 12 (restaurant)
- 1 (in-state producer) and 7 (beer & wine bar)
- 3 (domestic microbrewery) and 12 (restaurant)
- 3 (domestic microbrewery) and 7 (beer & wine bar)
- 3 (domestic microbrewery) and 6 (bar – all spirituous liquor)
- 6 (bar – all spirituous liquor) and 10 (beer & wine store)
- 7 (beer & wine bar) and 10 (beer & wine store)
- 7 (beer & wine bar) and 9 (liquor store) or 9S (liquor store with sampling privileges)
- 7 (beer & wine bar) and 12 (restaurant)
- 13 (domestic farm winery) and 7 (beer & wine bar)
- 13 (domestic farm winery) and 10 (beer & wine store)
- 13 (domestic farm winery) and 12 (restaurant)

The liquor license application was revised to allow applicants to submit a single application for multiple licenses if the licenses applied for may be “stacked” as described above.

Fees will be based on the number of licenses per application, not by the number of applications submitted. For example, when two licenses are applied on one application, two non-refundable application fees will be charged. The same will apply for interim permits, transfer of ownership/location, and all other multiple transactions.

Liquor licenses issued for display in a conspicuous, public area will be issued as one (1) license per license type.

A.R.S. §4-206.01(L) establishes that it is the responsibility of the licensee to keep separate and accurate liquor inventory/reporting records for each license.
