

Multiple Licenses Permitted At One Location

AKA "stacked" licenses

The following liquor license combinations may be "stacked", the general definition being multiple, active liquor licenses operating at one physical location, and under the same ownership. An exception to this general definition (marked by an asterisk* in the table below) is the series 3/13 combination, which have more restrictive requirements. Requirements for the 3/13 combination, are briefly explained below the table (A.R.S. §4-205.09). Also, Remote Tasting Rooms are not located at the same premises, but require that either an active series 13 or 18 license be hold simultaneously.

* A.R.S. §4-205.09 permits a microbrewery (series 3) and farm winery (series 13) to be located on the same parcel of land, in separate building structures, and held by different ownership. Therefore, these two licenses (3 and 13) are "stacked" only by proximity, not by ownership or operations occurring at the same physical location. They may, however, share a tasting room.

* * A.R.S. §4-205.04(D) and (E) permit custom crush and alternating proprietorship agreements. Each entity must be licensed as a series 13 to participate in either arrangement, therefore operating more than one series 13 at one licensed location simultaneously.

The liquor license application has been revised to allow applicants to submit a single application for multiple licenses if the licenses applied for may be "stacked" as described above.

Fees will be based on the number of licenses per application, not by the number of applications submitted. For example, when two licenses are applied for on one application, two non-refundable application fees will be charged. The same will apply for interim permits, transfer of ownership/location, and all other multiple-license transactions.

Liquor licenses issued must be displayed in a conspicuous, public area, one (1) license per license series.

A.R.S. §4-243.01(A)(3)(a)-(e) states that it is unlawful for a retailer to order, purchase, or receive liquor from any source other than a wholesaler, farm winery or microbrewery.

A.R.S. §4-206.01(G) The holder of each license (series 7 & 9) shall fully comply with all applicable provisions of this title.

A.R.S. §4-206.01(K) (series 7 and 10) when stacked, all spirituous beverages purchased for sampling are conclusively presumed to be purchased under the beer and wine bar license and all spirituous liquor sold off-sale are conclusively presumed to be purchased under the beer and wine store license.

A.R.S. §4-206.01(L) (series 6 and 10) for purposes of reporting liquor purchases under each license, all off-sale beer and wine sales are conclusively presumed to be purchased under the beer and wine store license. It is the responsibility of the license to keep separate and accurate liquor inventory/reporting records for each license. When stacked, separate reporting for each license is a requirement.

A.R.S. §4-206.01(J)(6) Accurate records of sampling products dispensed shall be retained by the licensee.

A.R.S. §4-119 A licensee shall retain records for two years.

R19-1-317 The licensee shall comply with all of the requirements for the type of license issued for their establishment. The Department has the discretion to conduct liquor inspections to verify compliance and, if necessary, order an audit of the business.
