DLLC WEBISTE ISSUES RESOLVED

The DLLC Information Technology team has been able to resolve prior issues that were making it difficult for wholesalers and distributors to verify the status of licenses. Now that the website has been restored to functionality, the temporary procedures announced in the Industry Advisory dated August 28, 2024, are now rescinded, and customers may resume conducting electronic verification of license status via the DLLC website at www.azliquor.gov.

DLLC sincerely appreciates your patience as we worked to resolve this issue.
